

It's Time For!

## Description

I watched a lot of TV as a kid. Some crap, of course, but also a bunch of educational shows. And there were some which I started to watch as a kid cause they were funny, and continued to watch for the education presented in a unique way.

Those who know me know that Beakman's World was my favourite show as a kid, but, that's another post,

This is devoted to a show even my Dad enjoyed. Animaniacs (produced by Steven Spielberg).

Here are two perfect examples of how I learned US state capitals AND the nations of the world. Keep in mind, they were done in the late 80s early 90s and some, like the nations of the world song, have many errors. See if you can name the ones he DOESN'T mention.

But, just sit back, crank up the volume, and enjoy! Who knows, you might even learn something.
