

## Animal FUN!!!!

### Description

Animals keep me sane.

I love learning about them, and I tend to remember the oddest stuff about them.

For example, I know that a giraffe's tongue is so long that it can lick the inside of its own ears.

Or, that the Tuatara lizard has three eyes, with one on top of its head.

Here are three stories that I like, that keep me sane, have some humour in them and are informative ðŸ™, *default watermark*

[How about some of the world's weirdest animal mating rituals?](#)

Or, [the most HORRIFYING bugs in the world?](#)

And lastly, read about the [six "adorable" animals that COULD kill you?](#)

Enjoy!!!!

Oh, and this pic makes me laugh.

This is how an Armadillo lizard protects itself ðŸ™,
