

## A Flash in the Pan

### Description

Already another post? Is David actually sticking to his commitment to blogging more?

Thatâ€™s right folks!

Life is still moving onwards at a fever pace, and Iâ€™m just trying to survive the ride.

Just a short post today, as I have a new article to unveil ðŸ™,

Iâ€™ll put the link to the right of this post under a selection of my most recently published articles. It is from my summer at NSERC regarding a new method to create paper that disinfects and purifies water of harmful bacteria.

It is entitled, "NSERC Article " BioActive Paper"

Check it out!!
